

Yeovil College Enjoys Wheel-y Good Day Out At Classic Car Event

Yeovil College Motor Vehicle attended the “Classic & Supercars at the Castle, Sherborne”, to talk to the general public about study programmes and Apprenticeships on the 17 July.

Chris Hamlett, Curriculum Area Manager for Motor Vehicle, said, ‘The event attracted a wide range of people of all ages. This was an opportunity to discuss the various study programmes we offer at the college and what type of courses can be designed to draw in a wide range of people.’

A Wheel Change Challenge was set up in order to provide some hands on experience. The challenge was to change the wheel in the fastest time. The prize went to Phil Shurley, he changed the wheel in 1 minute, 16 seconds and won a Phase 2 Toolbox.

The Motor Vehicle department were able to obtain feedback about the public interests of Motor Vehicle study programmes. This will help the college to provide study programmes that will engage more people within the local area to do a Motor Vehicle study programme at Yeovil College.
